

Universal Line

Universal: *one product,*
infinite possibilities!

Discover the **Universal line from Ybera Paris**, where potency and versatility come together to meet the needs of all hair types. Our advanced formulas deliver thermal protection and intelligently adapt to the structure of each strand, ensuring impeccable results without overloading the hair. Whether it's to define curls, maintain sleek straight hair, or revive waves, each product celebrates the individuality of your hair, elevating your routine to a new standard of excellence.

Experience the difference that science and passion for beauty can make.

Recommended for all hair types.

PRINCIPAL TECHNOLOGY

The Universal line from Ybera Paris shares the main characteristics that ensure its efficacy for all hair types.

1. Low-weight molecular ingredients:

Mechanism of action: Due to their reduced size, these ingredients penetrate deeply into the hair fiber, providing nourishment and hydration from within. This strengthens the internal structure of the strands without leaving them weighed down, enhancing lightness and natural movement.

2. Thermal protection:

Mechanism of action: The products form a protective barrier around the strands, minimizing the damage caused by dryers and flat irons. This prevents dehydration and breakage, keeping the hair healthy, even after heat exposure.

3. Formula adaptive to the strand:

Mechanism of action: The formulations are designed to adapt to the specific needs of all hair types - whether straight, wavy, curly, or transitioning. This assures that each strand receives adequate care enhancing personalized and effective results.

These shared components work in synergy to deliver healthy, protected, and visually shiny hair – regardless of its texture or condition.

• LEAVE-IN UNIVERSAL

The Leave-in BB Cream from the Ybera Paris Universal line is a no-rinse finalizer formulated with low molecular weight ingredients that easily adapt to all hair types. Its multifunctional formula is free from animal-derived ingredients, parabens, petrolatum, and sulfates—providing safe, effective, and complete care for your hair.

Benefits

- ✓ Thermal protection: It defends the hair against the damage caused by the heat from dryers, flat irons, and styling tools.
- ✓ Deep nourishment: It provides essential nutrients that revitalize and strengthen the hair fiber.
- ✓ Anti-humidity coating: It creates a barrier that prevents the absorption of excessive moisture, helping to tame the strands.
- ✓ Anti-frizz effects: It reduces frizz, ensuring a sleeker, tamer appearance.
- ✓ Sealing of the ends: It prevents and treats split ends, keeping them healthy and tamed.
- ✓ Long-lasting straightening effect: It keeps the hair straight for longer, even under adverse conditions.
- ✓ Color protection: It helps to preserve the intensity and shine of hair color, avoiding premature fading.
- ✓ Solar protection: It defends against the damage caused by sun exposure.
- ✓ Curl activation: It enhances curl definition, delivering shape and elasticity.
- ✓ Continuous hydration: It keeps the strands hydrated throughout the day, preventing dryness.
- ✓ Intense shine: It provides radiance and a healthy appearance to the hair.

Exclusive Ingredients

Hair restoration system: It strengthens and repairs the hair fiber, protects against heat and chemical damage and delivers tamer, healthier and more hydrated strands.

Polyquaternium-67: It hydrates, reduces frizz and improves manageability, delivering softness, shine and protection to the hair.

Coconut Oil: It hydrates, nourishes and protects the strands, reducing frizz, preventing damage and prolonging the straightening effect.

Antioxidant Protector: Counteracts free radicals, prevents damages caused by external agents and maintains the hair healthy, shiny and protected.

Lactic Acid: It hydrates, seals cuticles and improves the texture of the strands, delivering shine, softness and protection against damage.

Phenyl Trimethicone: It promotes intense shine, reduces frizz, improves manageability and protects the strands against environmental damage, leaving them soft and tamed.

Expected results

With continuous use of the Universal Leave-in, the strands become visibly softer, shinier, healthier and more tamed.

Instructions: Apply directly to wet hair and style as desired.

pH: Between 3.0 and 4.0

Available size: 250g

• SUMMER PROTECTION

Summer Protection is specially formulated to care for and protect hair during the summer, when strands are more vulnerable to damage from the sun, sea, and pool. Its advanced formula creates a protective barrier that prevents hair from becoming dry and porous, while also repairing and strengthening the hair structure. Free from animal-derived ingredients, parabens, petrolatum, and sulfates, it provides safe and effective care for all hair types.

Enriched with ingredients that promote smoothness, silkiness, and intense shine, Summer Protection makes detangling easier—even during sun exposure—keeping hair light, flowing, and manageable.

Benefits

- ✓ UV protection: It shields the hair against damage from sun exposure, preventing dryness and fading.
- ✓ Sun and chlorine resistance: It minimizes the harmful effects of the sea or pool, preventing the strands from becoming rough, dry or brittle.
- ✓ Deep hydration: It repairs and strengthens the hair structure, keeping the hair soft and healthy.
- ✓ Easy detangling: It detangles the strands with ease, preventing knots and breakage, even after exposure to salt water.
- ✓ Scalp protection: It offers a natural defense to the scalp against sun exposure, preventing irritations and burns.

Exclusive Ingredients

UV Protection Nano vectors: These create an effective barrier against sun damage, preserving the integrity of the hair fiber, preventing color fading, shielding against environmental aggressors and keeping the hair healthier, more hydrated and radiant for longer.

Hair Regenerator: Repairs the damage in the hair fiber, promotes deep hydration and restores the hair's vitality, leaving it healthier, stronger and shinier.

Amino Acid Blend (Vitamin B5, Vitamin B2, L-Histidine, L-Arginine, L-Lysine): It strengthens and repairs the hair fiber, promoting deep nourishment, long-lasting hydration, elasticity, damage protection and hair that is silky and soft to the touch.

D-panthenol: Deeply hydrates, improves elasticity, strengthens the strands, reducing breakage and promotes softness and shine, ensuring healthy and revitalized hair.

Conditioning Ingredients: They smooth and seal the hair cuticle, reducing frizz, making detangling easier while delivering extreme softness and intense shine, as well as protection against dryness and environmental aggressors.

Expected results

With regular use of Summer Protection, you'll notice your hair becomes more hydrated, softer, and shinier—even after prolonged exposure to the sun, sea, and pool. The strands will remain protected against typical summertime environmental damage, maintaining a healthy and vibrant appearance all season long. Moreover, your scalp will be protected, helping prevent discomfort caused by sun exposure.

Instructions: Spray directly on wet or dry hair and style as desired.

Available size: 250ml

• C360 SPRAY

The C360 Spray from Ybera Paris is recognized as one of the most effective heat protectants on the market, with proven efficacy in protecting the hair against temperatures up to 360°C. Its liquid formula is lightweight and easy to apply, ensuring an even distribution without weighing the strands down. Ideal for use before using blow dryers, flat irons, and curling irons, the C360 Spray creates a protective barrier that prevents dryness, breakage, and nutrient loss during heat processes. In addition, it delivers surprising three-dimensional shine and improves the glide of the heat tools, the perfect finisher for hair styles that involve high temperatures.

This product is highly recommended for processes such as keratin treatments where using a flat iron on small sections requires effective thermal protection. Moreover, its formula is free of animal-derived ingredients, parabens, petrolatum and sulfates, ensuring the safest and healthiest care for your hair.

Benefits

- ✓ Thermal protection up to 360°C: Shields the strands against the damage caused by high temperatures.
- ✓ Lightweight spray formula: Makes application easy on wet hair, ensuring even distribution without weighing it down.
- ✓ Protection from dryness and breakage: Keeps the hair healthy while using heat tools.
- ✓ Three-dimensional shine: Delivers a dazzling and sophisticated finish to the hair.
- ✓ Improves the glide of heat tools: Makes the use of flat irons and blow dryers easy, promoting more efficient straightening without friction.

Exclusive Ingredients

Phenyl Trimethicone: Forms a protective layer that shields against heat, enhances shine, and leaves hair feeling silkier and more manageable.

Bis-Cetearyl Amodimethicone: Deeply conditions and smooths the strands, improves texture, tames frizz, and provides softness and intense shine, helping to prevent damage and maintain a polished look.

Cyclopentasiloxane and Dimethicone: Work together to form a lightweight protective barrier that offers thermal defense, reduces frizz, and enhances shine and softness, keeping the hair smooth and under control.

Cyclopentasiloxane and Dimethiconol: Act as heat protectants, creating a barrier that minimizes the impact of heat tools. They help preserve the hair's structure while boosting softness, frizz control, and luminosity.

Expected results

With the regular use of C260 Spray, you will notice shinier, softer, and more protected hair even after procedures involving high heat. The strands will remain healthy with an impeccable finish and a three-dimensional shine that highlight the hair's natural beauty.

Instructions: Spray directly on wet hair and evenly distribute it. Then follow by blow drying and/or flat ironing as desired.

Available size: 150ml

★ C360 GLOSS

We present the C360 Gloss from Ybera Paris, a high-performance gel finalizer specifically designed to protect the hair up to 360°C. Ideal for use during and after heat procedures, it creates a protective barrier that prevents dryness, breakage, and the loss of the strands' essential nutrients. Its innovative formula delivers a three-dimensional shine, leaving the hair soft and silky with an impeccable finish. In addition to this, it is free of animal-derived ingredients, parabens, petrolatum and sulfates, ensuring safe and effective care.

Benefits

- ✓ Advanced heat protection: Defends the strands against the damage caused by high temperatures up to 360°C.
- ✓ Gel texture: Makes the application to dry and wet hair easy, ensuring an even distribution without weighing the hair down.
- ✓ Three-dimensional shine: Delivers a radiant and sophisticated finish to the hair.
- ✓ Breakage and dryness prevention: Keeps the hair healthy during the use of heat tools.
- ✓ Improves the glide of heat tools: Makes the use of flat irons and blow dryers easier, promoting a more efficient straightening without friction.

Exclusive Ingredients

Phenyl Trimethicone: Forms a protective layer that shields against heat, enhances shine, and leaves hair feeling silkier and more manageable.

Bis-Cetearyl Amodimethicone: Deeply conditions and smooths the strands, improves texture, tames frizz, and provides softness and intense shine, helping to prevent damage and maintain a polished look.

Cyclopentasiloxane and Dimethicone: Work together to form a lightweight protective barrier that offers thermal defense, reduces frizz, and enhances shine and softness, keeping the hair smooth and under control.

Cyclopentasiloxane and Dimethiconol: Act as heat protectants, creating a barrier that minimizes the impact of heat tools. They help preserve the hair's structure while boosting softness, frizz control, and luminosity.

Expected results

With the regular use of C260 Gloss, you will notice shinier, softer, and more protected hair even after procedures involving high heat. The strands will remain healthy with an impeccable finish and a three-dimensional shine that highlight the hair's natural beauty.

Instructions: Apply a small amount of the C360 Gloss on wet or dry hair, distributing it throughout the length and ends of the hair. Style with a blow dryer, flat iron, or curling iron for a radiant and protected finish.

Available size: 90ml

• ALFA-CYS® HAIR ACIDIFIER

Does your hair feel rough and dry, and the roots and ends have different textures? The Alfa-Cys Acidifier from Ybera Paris is the universal solution to restore the health of your strands, balancing the pH and leaving your hair sleeker, softer, and more resistant. Different from any other acidifier, it doesn't belong to a specific line and can be used with any chemical treatment or hair care routine. Whether it is after straightening, coloring, or bleaching, it intelligently adjusts the pH of the hair, preventing damage and sealing the cuticles.

If your hair is transitioning, it is essential! The Alfa-Cys Acidifier smooths the difference between the curly roots and the chemically treated ends, reducing frizz, strengthening the hair fiber, and providing uniformity to the appearance and feel of the hair.

In addition to this, its formula is free of animal-derived ingredients, parabens, petrolatum, and sulfates, ensuring a safer and more ethical routine for your hair.

Benefits

- ✓ Restores the hair's natural pH after any chemical treatment, preventing dryness and breakage.
- ✓ Seals the cuticles, reducing porosity and leaving the strands softer and shinier.
- ✓ Reduces frizz and controls the strands, making them more manageable and easier to detangle.
- ✓ Perfect for transitioning hair, helping to balance the difference between the natural roots and the chemically treated ends.
- ✓ Compatible with all treatments, able to be used with any professional line or hair care routine.

Exclusive Ingredients

Alfa-Cys®: Balances the hair's pH, reconstructs internal bonds, strengthens the hair structure and prevents fragility, porosity and damage caused by chemical processes.

Keranutri: Works to repair the hair fiber, strengthening the strands and sealing the cuticles. It promotes deep hydration, manageability, shine and resistance, improving the health of the hair and prolonging the results of chemical treatments.

Amino Acid Blend (Vitamin B5, Vitamin B2, L-Histidine, L-Arginine, L-Lysine): Repairs, strengthens, hydrates, and tames the strands, sealing the cuticles and ensuring softness and shine.

Polyquaternium-67: Hydrates and protects the hair while enhancing combability. Forms a film that reduces frizz, boosts softness, and improves manageability.

Glycerin: Deeply hydrates by attracting and retaining moisture, preventing dryness and increasing softness and improving the hair's elasticity.

Camellia Leaf Extract: Hydrates, strengthens and protects the strands, reducing frizz and delivery softness and shine, as well as aiding in the manageability and restoration of the hair.

Amodimethicone: Provides conditioning and detangling, reduces frizz, enhances shine, improves the hair's manageability and protects against heat, chemicals and pollutants.

Expected results

Stronger and more resistant hair without breakage or fragility.

Less frizz and more manageable hair from the roots to ends.

Silky finish, incredible softness and intense shine.

Healthier strands with a more harmonious look, with looking brittle and lifeless.

Recommended Use

Perfect for hair chemically damaged by bleaching and straightening, and for blonds that need tone correction and strengthening. It can be repeated as needed to maintain the hair's health and resistance.

Use weekly for continuous restoration. This intensive protocol delivers immediate and long-lasting repair, restoring the hair fiber from within for healthier, more manageable, and resistant hair.

pH: Between 3.0 and 4.0
