

BOTULINIC LINE

*Rediscover your hair's
youth with the Botulinic
Line's hair
harmonization.*

*The **Botulinic Line from Ybera Paris** follows a precise process inspired by facial rejuvenation treatments. Just like for the skin, when an esthetician uses toxins, fillers and boosters to restore a youthful appearance, this hair treatments works in three essential stages to transform the strands from within.*

Hair rejuvenation Protocol

Botulinic activation, the foundation of rejuvenation:

First, we apply botulinic actives—composed of plant-based toxins and advanced peptides—that restructure and smooth the hair fiber. This step helps reverse visible signs of aging in the hair, such as porosity and fragility.

Botulinic activation, the foundation of rejuvenation:

First, we apply botulinic actives—composed of plant-based toxins and advanced peptides—that restructure and smooth the hair fiber. This step helps reverse visible signs of aging in the hair, such as porosity and fragility.

Nourishment boost, the final touch of the hair rejuvenation:

Finally, we do a deep hydration treatment and a nutritional boost, that helps the hair to retain more water and essential nutrients. This step ensures soft, luminous, and younger looking hair.

PRINCIPAL TECHNOLOGY

BIOTOX® is an advance in hair care, a technology that uses low weight molecular botulinic peptides to restore and strengthen the strand. These peptides deeply penetrate the internal structure of the hair, identifying and correcting damaged areas. When filling these gaps, BIOTOX® reinforces the thickness and the integrity of the strands, resulting in stronger, sleeker, and more rejuvenated hair with intense shine and structural balance.

Recommended: For aging, fragile hair with little volume.

BIOTOX® ANTI-AGING SHAMPOO

The BIOTOX Anti-Aging Shampoo is especially formulated to combat the signs of hair aging. Its formula combines botulinic peptides and encapsulated vitamin E microbeads that penetrate deep into strands' structure. The peptides strengthen and restructure the hair while the vitamin E delivers antioxidant protection against damage and oxidative stress. With continuous use, this shampoo rejuvenates the hair fiber, promoting density, softness and protection against the effect of time ensuring healthy and revitalized hair.

Benefits

- ✓ Fights against hair aging.
- ✓ Strengthens and restructures the strands.
- ✓ Has antioxidant action.
- ✓ Rejuvenates the hair fiber.
- ✓ Protects against the effects of time.
- ✓ Free from animal-derived ingredients.
- ✓ Free from parabens and petrolatum.
- ✓ Silicone free.

Active Ingredients

BIOTOX®: Fills internal gaps, strengthens and tames the strands, reduces porosity, and restores elasticity, intense shine, and balance to the hair.

Botulinic Nano peptides: Smooth and restructure the strands reducing frizz and improving the hair's elasticity and vitality.

Polyquaternium-7: Conditions the hair, improves manageability, and reduces frizz. It forms a protective coating that preserves moisture, increasing shine and delivering softness to the strands.

Hyaluronic Blend: Deeply hydrates the strands, retaining moisture and preventing dryness. It improves elasticity, delivers softness and shine, and helps to restore the hair's vitality.

Vitamin E Beads: Releases antioxidants directly into the hair, protecting against the damage caused by free radicals. They promote hydration, improve softness, and strengthen the hair and help to preserve the strands' health.

Instructions:

Apply the shampoo to wet hair and massage it in until it forms a rich lather. Rinse and repeat.

pH: Between 6.0 and 7.0

Available sizes:  250ml  500ml  1L

BIOTOX® SMART RECONSTRUCT

The BIOTOX® Smart Reconstructor is an advanced treatment designed to revitalize damaged and aging hair. Its low-weight molecular formula, enriched with botulinic ingredients, it deeply penetrates the hair fiber, replenishing protein mass, and filling in the weak areas of the hair strand. In addition to restoring its internal elasticity and thickness, this reconstructor delivers nutritional boosts that enhance hydration, delivery the hair with a youthful, healthy appearance.

Benefits

- ✓ Replenishes protein mass.
- ✓ Deeply penetrates.
- ✓ Restores elasticity and thickness.
- ✓ Delivers a nutrition and hydration boost.
- ✓ Repairs the cuticles and reduces porosity.
- ✓ Protects against external damage.
- ✓ Free of parabens and petrolatum.
- ✓ Sulfate free.

Active Ingredients

BIOTOX®: Fills internal gaps, strengthens and tames the strands, reduces porosity, and restores elasticity, intense shine, and balance to the hair.

Botulinic Nano peptides: Smooth and restructure the strands reducing frizz and improving the hair's elasticity and vitality.

Hair Reconstruction System: Rebuilds the hair fiber, restores strength, moisture, and vitality to the strands repairing the damaged structure and ensuring healthier, more resilient hair.

Polyquaternium-7: Conditions the hair, improves manageability, and reduces frizz. It forms a protective coating that preserves moisture, increasing shine and delivering softness to the strands.

PLEX Restoration System: Rebuilds the hair fiber, strengthens the strands, prevents breakage, and improves elasticity delivering healthier, more resilient hair.

Shea Butter: Deeply hydrates, nourishes, and protects the strands, helping to restore softness, elasticity, and vitality in addition to combatting dryness and frizz.

Macadamia Oil: Hydrates, nourishes, and strengthens delivering shine, softness, and protection against damage.

Isolated Oat Protein Extract: Strengthens and hydrates the strands, helping to improve the hair's elasticity and resilience in addition to smoothing and protecting against environmental damage.

Lactic Acid: Balances the pH, seals the cuticle, improves softness and shine, and strengthens the strands.

Sericin Nanoparticles: Form a protective coating, enhancing deep hydration, shine, softness, and resilience in the hair in addition to improving the restructuring of the hair fiber.

Instructions:

For a deep treatment - Apply the mask in sections and gently massage it in. Put the hair in a bun and leave it for 10 minutes. Rinse thoroughly. Recommended for use once a week.

For a conditioning treatment - For a light and fast conditioning, apply a small amount to the hair, massage it in, and then rinse. Perfect for daily use.

pH: Between 3.0 and 5.0

Available sizes:  200g  500g  1KG

BIOTOX® VOLUMIZING FILLER

The BIOTOX Volumizing Filler is a hair treatment designed to even out the texture of fine, aging hair. Its advanced formula fills internal gaps, restores strand structure, and rebalances the hair's pH. It also combats the loss of elasticity and smooths out imperfections resulting in fuller, more uniform, and revitalized hair.

Benefits

- ✓ Fills in internal gaps and restores the strands' structure.
- ✓ Balances the hair's pH.
- ✓ Combats the loss of elasticity.
- ✓ Versatile to use.
- ✓ Offers heat protection.
- ✓ Free from animal-derived ingredients.
- ✓ Free from parabens and petrolatum.
- ✓ Sulfate free.

Active Ingredients

BIOTOX®: Fills internal gaps, strengthens and tames the strands, reduces porosity, and restores elasticity, intense shine, and balance to the hair.

Botulinic Nano peptides: Smooth and restructure the strands reducing frizz and improving the hair's elasticity and vitality.

Hydrolyzed Wheat Protein: Strengthens and repairs the strands enhancing deep moisture and the reduction of breakage, leaving the hair healthier and more resilient.

Flaxseed Oil Extract: Hydrates, nourishes, and improves the hair's elasticity, providing shine, frizz control, and protection against environmental damage.

Keranutri: Nourishes and repairs the hair fiber, delivering the hair with more resilience, shine, and softness. It helps to restore the hair's health preventing damage and improving the hair structure.

Amino Acid Blend: Helps to strengthen the strands, improve elasticity, and reduce breakage. It also hydrates and repairs the hair structure, promoting healthier, softer, and shinier hair.

Instructions:

Spray the BIOTOX® Volumizing Filler onto wet hair from 15cm, then style as desired.

pH: Between 4.0 and 6.0.

Available sizes:  150ml  500ml

★ BIOTOX® BOTULINIC ACTIVE

The BIOTOX Botulinic Active is a hair treatment that delivers botulinic peptides directly into the hair's cortex, activated by heat source to enhance its effects. Its primary function is to fill the hair's internal structural gaps, temporarily increasing the hair's thickness and uniformity. Moreover, it revitalizes the strands evening out the texture from root to the end blending aged ends with new growth and restoring youthfulness, vitality, and elasticity to the hair.

Benefits

- ✓ Repairs internal gaps, temporarily increasing the thickness of the strands.
- ✓ Evens out the hair's texture from root to end.
- ✓ Reinforces the strands' internal structure.
- ✓ Restores youthfulness and elasticity to the hair.
- ✓ Delivers personalized results.
- ✓ Free from parabens and petrolatum.
- ✓ Sulfate free.

Active Ingredients

BIOTOX®: Fills internal gaps, strengthens and tames the strands, reduces porosity, and restores elasticity, intense shine, and balance to the hair.

Botulinic Nano peptides: Smooth and restructure the strands reducing frizz and improving the hair's elasticity and vitality.

Polyquaternium-7: Conditions the hair, improves manageability, and reduces frizz. It forms a protective coating that preserves moisture, increasing shine and delivering softness to the strands.

Lactic Acid: Balances the pH, seals the cuticle, improves softness and shine, and strengthens the strands.

Hyaluronic Blend: Deeply hydrates the strands, retaining moisture and preventing dryness. It improves elasticity, delivers softness and shine, and helps to restore the hair's vitality.

INSTRUCTIONS:

After using the BIOTOX Anti-Aging Shampoo, use a hair dryer to remove excess moisture. Then apply the BIOTOX Botulinic Active and leave it on depending on the desired result following the protocol below. Rinse and style as desired.

pH: Between 1,5 e 3,0.

Available sizes:  500g  1kg

Younger Hair!

What to expect from hair rejuvenation?

- ✓ Strands with more volume and resilience, getting rid of aged appearance.
- ✓ Balanced hair with without inconsistencies in the hair's health between the roots and the ends.
- ✓ Hydrated strands with uniform shine that intensely reflects light.
- ✓ Control over the shape of the hair, keeping the natural structure whether it is straight or curly.

Daily Use Routine

Botulinic Premium Day (Recommended for use once a week)

Hair Rejuvenation Protocol – Straight Results

The results of this protocol can last up to 90 days. If desired, the process can be repeated 15 days after the first application.

Hair Rejuvenation Protocol – Curl Activation Results

The results of this protocol can last up to 90 days. If desired, the process can be repeated 15 days after the first application.

Hair Rejuvenation Protocol – Wavy Results (For those with type 3B, 3C and type 4A, 4B, 4C hair that want wavy hair)

The results of this protocol can last up to 90 days. If desired, the process can be repeated 15 days after the first application.
